

FOREIGN MARKETS AFFECTED.

UNSETTLED CONDITIONS HERE A DISTURBING FACTOR.

Decrease in Bank of England's Reserve, but Rate Will Probably Drop to 3 Per Cent. This Week—Labor Difficulty Still Affects South African Shares.

Special Cable Despatch to THE SUN.
LONDON, June 6.—No cause having their origin on this side of the water disturbed the stock market this week. In the greater part of Cape Court business was slack as an effect of the Whitehead reefs. The unsettled state of the American and Canadian railroad markets, which at present is the keynote of the position, not only of the London, but of all the European bourses has been the only disturbing factor. The chief interest centers in the action of the anthracite coal miners. The market here would quickly respond to the intervention of President Roosevelt.

The rumors of unfavorable corn and cotton crops and, naturally, the position of Wall Street, materially aided the American liquidation, though it is worthy of note that the stock offered was readily absorbed by the Continent, and especially by London.

The outflow of gold in connection with the holiday and end of the month requirements considerably more than neutralized the effect of the receipts of this metal from abroad. The Bank of England reports a reduction in coin of £488,222 and a decrease in reserves of £231,337, the proportion to liabilities being reduced to 49½ per cent.

It is expected that the completion of the German or the Argentine Republic the bank rate will be 3 per cent. next week. Indeed, bills are now readily taken at that figure. At present foreign exchanges are in no case weak enough to threaten the Bank of England's stock of gold.

The South African mining shares still remain under the cloud of the labor question, and this prevents the magnates from supporting them. Yesterday's depression was caused mainly by the report of the shutting down of one mine in South Africa and fears that others will follow suit. It is estimated that the importation of coals from India will release about 20,000 blacks for work in the mines, but this will still leave the available number less than before the war.

The feature of the market for foreign securities was the strong demand for Turkish bonds because of the completion of the negotiations for the unification of the Ottoman debt, while the South Americans were also prominent. The President of Argentina is said to be bent on forcing through a unification scheme. The majority of the sales in South Americans, however, were in Uruguayan, Colombian and Venezuelan. Copper remains in a demoralized condition. It is expected that large purchases of cash have been made, and the payment of from ten to thirty-five shillings per ton for the loan of warrants for three months seems to predict a squeeze during June. Meanwhile a large bear account has been opened in standard for forward delivery. There is now a difference of over twenty shillings between three months and spot quotations, the latter standing at 258½ per ton.

ARRESTS FOR POLICY DEALING.

John Corral, John Polito, Nicola Capella and Vincenzo Scillo Accused.

Police Captain Roemer of the Fulton street station, Brooklyn, assisted by several plain-clothes men from Manhattan, arrested John Corral of 184 Union street last night, on a charge of dealing in policy at 130 High street. The complainant was Patrolman Carolan of the Fifth precinct, Manhattan, who was in plain clothes and who played policy in Corral's place yesterday, investing 17 cents.

Capt. Roemer and his detectives of the Hamilton avenue station made several arrests yesterday of men charged with dealing in policy at 2 President street, and Vincenzo Scillo was arrested for running a policy game at 41 President street.

WOMAN CRAZED BY MORPHINE.

Screams in a Ferry House Until a Policeman Carts Her Away.

A young woman created a scene at the West Forty-second street ferry last night by screaming frantically until Policemen Lyons called a patrol wagon and took her to the West Forty-seventh street station, where she said her name was Nancy Brown of Haverstraw. She told the sergeant she was a morphine fiend.

The police finally learned that her name was Emma Bonny, and that she does come from Haverstraw. She was taken to Bellevue Hospital and put into the prison ward.

Church to Celebrate Fiftieth Anniversary.

The Congregation of Christ Protestant Episcopal Church at the Avenue of the Americas, New York, will begin to-day to celebrate its fiftieth anniversary. The Rev. Bishop Falkner, pastor of the church, has arranged a special musical program. A number of former pastors of the church will deliver addresses. This morning the Rev. John A. Aspinwall, rector emeritus of St. Thomas's Church in Washington, will deliver a historical address. In the evening Bishop Burgess will confirm a large class.

Minnesota Northern Securities Case.

St. Paul, Minn., June 6.—The argument in the State case against the Northern Securities Company was continued to-day in the Federal Court, and will be concluded on Monday. The State attorneys argued that the merger of roads was a violation of the Sherman law and of the antitrust laws of the United States. The defense contended that this was not true, but admitted that competition had been eliminated since the formation of the securities company.

U. S. in Chicago Clearing House.

CHICAGO, June 6.—Members of the Clearing House Committee have unanimously adopted a resolution recommending to the association that the local sub-treasurer be admitted to membership upon the same terms as those enjoyed by the banks. The committee issued a call for a meeting of the association to be held next Tuesday, when the resolution will be acted upon. It is believed that an adverse vote of consequence will be recorded.

J. V. Vanderbilt, Draughtsman, Gets a Divorce.

NORFOLK, Va., June 6.—Joseph V. Vanderbilt, a draughtsman, obtained an absolute divorce from his wife, formerly May Lane Vanderbilt, to whom he was married in New York city in 1898, the wedding performed by the Rev. Joseph R. Kerr, at 631 West End avenue. Vanderbilt, the plaintiff, alleged that his young wife deserted him after they moved from New York to Rochester, his former home, because she did not like to live there.

Father Hendrick Archbishop of Manila.

A cablegram from Rome yesterday announced that Father Thomas Hendrick, pastor of St. Bridget's Church, Rochester, has been chosen Archbishop of Manila. Father Hendrick is about thirty years ago. He will be consecrated Bishop and Archbishop on the same day.

ESTIMATES OF STEEL EARNINGS.

Carried Up to 1924 in a Pamphlet by H. W. Rosenbaum.

H. W. Rosenbaum, 35 Broad street, a well-known dealer in London options on American stocks, has written a pamphlet on the United States Steel Corporation. He states that he has "always believed that the public has greatly undervalued this great corporation, partly from misconception and partly from prejudice," and that it is his "sincere belief that those investors in the securities of the company having the courage of their convictions will be retaining their holdings for a reasonable period of years, and that they have really made a remarkably lucrative and safe investment."

GOSSIP OF WALL STREET.

Room sentiment was bearish on balance at the close yesterday, the bank statement freshly discouraging a number of tentative bulls. The bearish demonstration in the early trading was made, some thought, to facilitate short covering. Attention was made a special object of attack. (Griest and Bissell) forced the stock to break through 73. Seven was a large buyer, presumably for short account, as he has been conducting operations on the short side of the stock. The amount of long stock brought out yesterday was said by various specialists to be insignificant. It is a question whether the floating supply of stocks stands much increased as a result of the bearish operations and the attending liquidation last week. The absorption which was in evidence all the week, and which became very conspicuous in Friday's session, is believed by many observers to have fully offset the liquidation, leaving the floating supply, as it is called, about as it was.

"The way with the market," said a floor critic yesterday, "is that in the various crowds of speculators being ordered in and out of the market, there is a bidding for."

There was a very good demand for stocks in the loan department yesterday, especially for Pennsylvania, Michigan, Canadian Pacific and Missouri Pacific. The prevailing rate was 3 per cent. The demand for Pennsylvania was so great as to cause a slight uptick in the ruling rate, or at an average of about 2½ per cent. Street & Norton and Content & Co. were heavy borrowers of various stocks. The impression in the loan crowd is that the interest rate is still large. The which reflects in the loan department appeared, indeed, to have increased since Friday.

London houses bought moderately during the first hour yesterday. They seem to have been taking Atchison freely for several days. "You'd think from what you hear over there in the room," said a two-dollar man after the close of the market yesterday, "that the stock market is a lot of old and new newspapers, at so much a paper. I heard a man say this morning on selling a certain stock short that when he bought it back he had it split into five-share certificates and paid his money with them. May be he will all wake up some morning and find that they have sold themselves into a bag."

Persons who have been away from Wall Street for six months or a year grow very enthusiastic over the market and insist that those who have been with it day by day, trading in and out, cannot see its possibilities as they see them. Several men who have recently returned after long periods of absence—shrewd market readers some of them—are impatiently but aside the bearish position of the situation and say the time has come when they have already been liberally discounted. Less than a year ago it was just the other way. Persons then returning from their vacations were struck with the "bearishness" of the market. During their absence, and said everything had got too high; that the bullish features of the situation had been overbought in the speculative sense. Wall Street was as bullish then as it is bearish now.

Referring to the report that a syndicate had been formed to take over 40,000 shares of Dominion stocks from Ames & Co., a house that has had a lot of Canadian business received from Toronto yesterday a private message saying the holdings of Ames & Co. and its clients in Dominion stocks would not amount to 10,000 shares.

The constant wrangling between wire houses and their out-of-town correspondents over interest charges may lead to a formal agreement at the end of each month shall name a minimum rate for that month and penalize members who go below it. As the matter now stands sharp competition between the least interest being favored over others, and competition between members is contrary to stock exchange policy. A correspondent in Chicago says that the wire houses at the end of each month shall name a minimum rate for that month and penalize members who go below it. As the matter now stands sharp competition between the least interest being favored over others, and competition between members is contrary to stock exchange policy. A correspondent in Chicago says that the wire houses at the end of each month shall name a minimum rate for that month and penalize members who go below it. As the matter now stands sharp competition between the least interest being favored over others, and competition between members is contrary to stock exchange policy.

The support that has been given to the steel shares lately is an attracting attention. They seemed to be about as well bought last week as any industrial in the whole list.

The speculative position of Rock Island common is a subject of much conjecture. The technical short interest arising from the anticipated selling of stock by the Vanderbilt family is still a factor in the market. The common stock is known to be large, and there is believed besides to be a considerable actual short interest. The Western bear contingent is thought still to be in the market. It was to be given the stock support under 25. Brokers say it is easy to borrow it in almost any amount, and the impression somehow prevails that the short interest is not likely to be squeezed.

Stocks Steady in Amsterdam.

A foreign arbitrage house has been notified of the theft of 500 shares of Rock Island common stock and 530 shares of National Railroad of Mexico common stock. The former is selling at about \$24 a share and the latter \$23.

CANCEL ARANSAS PASS BONDS.

That is the Order From the Texas Railroad Commission.

AUSTIN, Tex., June 6.—The Railroad Commission has ordered the San Antonio and Aransas Pass to cancel \$1,700,000 of bonds which are alleged to have been issued illegally and also to reduce its capital stock from \$5,000,000 to \$1,000,000. In addition to these requirements the road must be segregated entirely from the Southern Pacific, which now holds 49.270 of the 50,000 shares of the stock.

The Railroad Commission notified the company on May 14 that if these requirements are complied with the proposed suit on behalf of the State for forfeiture of its charter and appointment of a receiver would not be filed. The Harriman interests have advised the Railroad Commission that the order will be obeyed, and the work of buying up the scattered \$1,700,000 of bonds which must be cancelled, has begun in progress for some time.

LITURGY CUT DOWN.

But the Use of the Long or Short Form Is Optional—Referred to Clergy.

ASBURY PARK, N. J., June 6.—Dr. Hutton, chairman of the Reformed Church liturgical revision committee, offered to the synod a compromise on the report submitted Wednesday on shortening the communion office. He suggested that the form be adopted for alternate optional use, and that it be so described in the rubric. The suggestion was received with enthusiasm.

Elder Van Vleet of Albany had time to remark that the classic was a shorter form and would have it. "In my judgment," he added, "children cry for it. You can do a great deal in seven minutes nowadays. It used to be that the prayers were so long that the congregation sighed at the close and forgot to say amen. Things are different now."

"I am only a youngster," said Dr. DeWitt, "but I see that the spirit of compromise is strong in the synod. Some of us are not quite adjusted to our religious practices to the pneumatic tube and the telegraph. No doubt we will get used to it."

Dr. Johnson of Albany thought the two forms would destroy the symmetry of the liturgy, but the sentiment was plainly the other way. The other forms were quickly adopted with slight amendment, and the report will now go back to the classic for confirmation. Dr. N. M. Stebbins was elected to the chair of the synod in the Western Semi-annual conference, which adjourned until Monday afternoon.

KILLED IN A PETTY QUARREL.

Dispute Over Twenty-five Cents Leads to Homicide in Cincinnati.

CINCINNATI, June 6.—Fred Gansel, aged 45, an insurance man, was stabbed in Elliot Wacker's women's tailoring establishment to-day by Wacker. Gansel was taken to the City Hospital, where he is expected to die. Wacker is under arrest charged with murder.

The men had a dispute over a small bill, there being only 25 cents difference in their claims as to the amount Gansel owed. It led to a personal encounter, and Gansel is said to have struck Wacker in the face with his fist. The latter seized all the shears and stabbed Gansel in the head, and then in the left groin.

Gansel leaves a wife. Wacker is single, and says he has lived in New York city. He came to the United States in 1895 from Austria.

Lady Herbert in Newport.

NEWPORT, R. I., June 6.—Lady Herbert, wife of Sir Michael Herbert, the British Ambassador, arrived at Newport to-night, where she will pass several days as the guest of Mr. and Mrs. Richard T. Wilson, her parents, at the Wilson villa on Washington avenue. Lady Herbert will be joined here in a few days by her husband. They will soon sail for England, where they are to spend the summer.

New Rock Island Project in Texas.

AUSTIN, Tex., June 6.—The charter of the St. Louis, Brownsville and Mexico Railway was filed in the Secretary of State's office here to-day. It is a Rock Island-Frisco project. The company will build a line from Sinton, Tex., to Brownsville, with a branch line to run up the Rio Grande, a distance of 200 miles.
